Mechanisms of Toxicity and Biomarkers to Assess Adverse Effects of Chemicals

Proceedings of the International Symposium on Human Health and Environment, 25–30 September, 1994, Salsomaggiore Terme (Parma), Italy

How much of the human disease burden is attributable to environmental chemicals?
L. Tomatis (Italy) 1
Mechanisms of toxicity and risk assessment
M. Lotti (Italy) 9
Use of mechanistic information in risk assessment for toxic chemicals
G.C. Becking (USA) 15
Opportunities for the development and use of biomarkers
P.A. Schulte (USA) 25
Role of biomarkers of exposure in the assessment of health risks
L.K. Lowry (USA) 31
Health risk assessment of long-term exposure to non-genotoxic chemicals: application of biological indices
R.R. Lauwerys, A. Bernard, H. Roels, J.-P. Buchet (Belgium) 39
Risk assessment (Summary report)
M. Manno (Italy) 45
Mechanisms and biomarkers of genotoxicity. Molecular dosimetry of chemical mutagens
A.A. van Zeeland, J.G. Jansen, A. de Groot, S. van Hees, C.M.M. van Teijlingen, C.W. op het Veld, M.Z. Zdzienicka, P.H.M. Lohman, H. Vrieling (The Netherlands) 49
Non-genotoxic mechanisms of carcinogenesis: studies of cell transformation and gap junctional intercellular communication
H. Yamasaki (France) 55
Mechanisms of neurotoxicity: applications to human biomonitoring
L. Manzo, A.F. Castoldi, T. Coccini, A.D. Rossi, P. Nicotera, L.G. Costa (Italy, Sweden, USA) 63
Early detection of immunotoxicity: from animal studies to human biomonitoring
H. Van Loveren, P.A. Steerenberg, J.G. Vos (The Netherlands) 73
Mechanistic basis for the development of biomarkers (Summary report)
C. Nolan (Belgium) 81
Exposure to complex mixtures: implications for biological monitoring
M. Ikeda (Japan) 85
Influence of individual factors and personal habits on the levels of biological indicators of exposure
L. Alessio, P. Apostoli, M. Crippa (Italy) 93
Individual susceptibility in occupational and environmental toxicology
P. Grandjean (Denmark) 105
Defining thresholds in occupational and environmental toxicology
W.N. Aldridge (UK) 109
Methodological issues in the use of biomarkers (Summary report)
K. Hemminki (Sweden) 119
Use of intermediate end-points to prevent long-term outcomes
A. Mutti (Italy) 121
Endpoints of developmental neurotoxicity in environmentally exposed children
G. Winneke (Germany) 127
Biochemical markers of neurotoxicity: research strategies and epidemiological applications
L.G. Costa, L. Manzo (USA, Italy) 137

Low-molecular-weight proteins as markers of organ toxicity with special reference to Clara cell protein
A. Bernard, R. Lauwerys (Belgium) 145
Styrene: from characterisation of DNA adducts to application in styrene-exposed lamination workers
K. Hemminki, P. Vodicka (Sweden, Czech Republic) 153
Use of biomarkers in epidemiology. The example of metabolic susceptibility to cancer
P. Vineis (Italy) 163
Epidemiological applications of biomarkers (Summary report)
B. Terracini (Italy) 169
Biological monitoring and standard setting in the USA: a critical appraisal
S.M. Rappaport (USA) 171
Toward WHO-recommended occupational exposure limits
M.I. Mikheev (Switzerland) 183
The role of biomarkers in derivation of WHO-guidance values for air pollutants
M. Younes (The Netherlands) 189
The role of biomarkers in the EC directives on health and safety
G.A. Aresini (Luxembourg) 191

Workshop on Quality Assurance for Biomarkers
Quality assurance in biomarker measurement
A. Aitio, P. Apostoli (Finland, Italy) 195
Quality assurance for immunochemical methods
E. Bergamaschi (Italy) 205
Standard reference materials and data quality assurance: the lesson from the analysis of trace elements
M. Gallorini (Italy) 209
Current status of the external quality assurance programmes of the German Society for Occupational and Environmental Medicine
K.H. Schaller, J. Angerer, G. Lehnert (Germany) 213
Quality assurance in biomarker measurement (Consensus document) 219

Workshop on Biomarkers of Exposure to Carcinogens in Epidemiological Studies
Genetic susceptibility biomarkers in studies of occupational and environmental cancer: methodologic issues
N. Rothman (USA) 221
DNA adducts in biomonitoring
K. Hemminki (Sweden) 227
Development of biomarkers of human exposure to carcinogens: the example of DNA-protein cross-links
P. Toniolo, E. Taioli (USA) 231
Sources of bias, effect of confounding in the application of biomarkers to epidemiological studies
P. Boffetta (France) 235
Methodological issues in the validation and application of biomarkers to cancer epidemiology studies (Consensus report). 239

Contributed Papers
Relationship between bone lead and other indices of lead exposure in smelter workers
M.L. Bleecker, F.E. McNeill, K.N. Lindgren, V.L. Masten, D.P. Ford (USA) 241
Assessment of exposure to inorganic arsenic by determining the arsenic species excreted in urine
E. Hakala, L. Pyy (Finland) 249
Kinetics of elimination of mesitylene and 3,5-dimethylbenzoic acid after experimental human exposure
P. Kostrewski, A. Wiaderna-Brycht (Poland) 259
A new physiological biomarker for nitrate exposure in humans
E.H.J.M. Jansen, R.H. van den Berg, A.B.T.J. Boink, C. Hegger, J. Meulenbelt (The Netherlands) 265
Ambient, biological, and biological efect monitoring of exposure to polycyclic aromatic hydrocarbons (PAHs) .....
B.A. Hatjian, J.W. Edwards, J. Harrison, F.M. Williams, P.G. Blain (UK, Australia) 271
Monitoring human risk and exposure to trinitrotoluene (TNT) using haemoglobin adducts as biomarkers
Y.-Y. Liu, M. Yao, J.-L. Fang, Y.-W. Wang (China) 281
Occupational genotoxicity assessment by mutagenicity assays
C. Rossi, P. Poli, A. Buschini, F. Cassoni, F. Magnani, S. Lucertini, S. Tolomei, C. Gerbelli (Italy) 289
^{32}P-Postlabeling analysis of DNA adducts in different populations
C. Schell, W. Popp, R. Kraus, C. Vahrenholz, K. Norpoth (Germany) 299

Altered levels of urinary prostanoids in lead-exposed workers
G. Hotter, L.M. Fels, D. Closa, J. Roselló, H. Stolte, E. Gelpí (Spain, Germany) 309
The assay of laminin fragments in serum and urine as an indicator of renal damage induced by toxins
R.G. Price, S.A. Taylor, E. Crutcher, E. Bergamaschi, I. Franchini, A.D.R. Mackie (UK, Italy) 313
Glomerular function of lead-exposed workers
K.S. Chia, J. Jeyaratnam, C. Tan, H.Y. Ong, C.N. Ong, E. Lee (Singapore) 319
Peripheral markers of catecholamine metabolism among workers occupationally exposed to manganese (Mn) .....
A. Smargiassi, D. Mergler, E. Bergamaschi, M.V. Vettori, R. Lucchini, P. Apostoli (Canada, Italy) 329
High consumption of fatty fish from the Baltic Sea is associated with changes in human lymphocyte subset levels
L. Hagmar, T. Hallberg, M. Leja, A. Nilsson, A. Schütz (Sweden) 335
Estrogenic pesticides: binding relative to estradiol in MCF-7 cells and effects of exposure during fetal life on subsequent territorial behaviour in male mice
F.S. vom Saal, S.C. Nagel, P. Palanza, M. Boechler, S. Parmigiani, W.V. Welshons (USA, Italy) 343
Colour vision loss in workers exposed to elemental mercury vapour
A. Cavalleri, L. Belotti, F.M. Gobba, G. Luzzana, P. Rosa, P. Seghizzi (Italy) 351
Racial differences in CYP1A1 genotype and function
E. Taioli, F. Crofts, J. Trachman, S. Bayo, P. Toniolo, S.J. Garte (USA, Mali) 357
Radiographic changes and lung function in relation to activity of the glutathione transferases theta and mu among asbestos cement workers
K. Jakobsson, A. Rannug, A.-K. Alexandrie, M. Warholm, L. Rylander, L. Hagmar (Sweden) 363
Exposure to toluenediamines from polyurethane-covered breast implants
O. Sepai, D. Henschler, S. Czech, P. Eckert, G. Sabbioni (Germany) 371
Changes in lymphocyte single strand breakage and liver function of workers exposed to vinyl chloride monomer
C.-L. Du, M.-L. Kuo, H.-L. Chang, T.-J. Sheu, J.-D. Wang (Taiwan) 379
Biological and environmental monitoring of exposure to airborne benzene and other aromatic hydrocarbons in Milan traffic wardens
S. Fustinoni, M. Buratti, R. Giampiccolo, A. Colombi (Italy) 387
